Personal Statement:

Passionate Frontend/SharePoint developer with hands-on experience designing, developing, and implementing Web applications and SharePoint solutions, responsive, efficient and reliable user interface components using JavaScript, React and a broad range of frontend technologies. Seeking to leverage development experience and hands-on technical expertise in a challenging role as a Frontend Developer

Skill set:

Frontend: React, Redux, Jest, React Testing Library, D3, JSOM, CSOM, SPFx
Backend: Node, Express, ASP.NET Core/MVC
Languages: JavaScript, TypeScript, C#, CSS
Tools: VS Code, NPM, Parcel, Webpack, Babel, Git, Github, Postman
Databases: SQL Server, MongoDB

Competencies:

- Strong knowledge of JavaScript and TypeScript concepts and best practices
- Experience and in-depth knowledge of React, both class and functional components
- Managing application state using Redux, React context, and React hooks
- Experience in front-end development tools such as Babel, Parcel, Webpack, Git and NPM
- Writing tests with Jest and React Testing Library, knowledge of TDD methodology
- Knowledge DOM - element creation, querying, manipulation, event handling, etc
- Consuming REST APIs, utilizing JSON for Web applications, familiar with GraphQL
- Proficiency in HTML and CSS, including Flexbox and CSS Grids layout techniques

Personal Projects: https://github.com/Shavkats
